STORAGE

SAFETY FIRST

Trucker® Series products provide fall protection benefits that **OSHA-minded** safety managers value. The Trucker® Series includes truck/trailer ladders to fit most semi-truck trailers and utility vehicles; with ladder storage racks available, for complete fall protection safety.

In the end, **safety, versatility, and efficiency** is why Trucker® Series products have been adopted by drivers and truck fleets in a wide range of industries. Our products are versatile to match any trailer style and deliver practical features including: folding handles that provide the operator with (3) points-of-contact, slip-resistant Grip-Strut® staircase steps, lightweight all-aluminum construction, which allows easy portability to the point-of-use, and a compact fold-together design for storage.
